

PROJECT RISHI GENERAL MEETING 1/19/10

Install system for water purification: 5-6 grand

Trip: interest people

- We might go with Berkeley instead of making it two trips

Water purification:

- We want to ask what they are doing in terms of the bathroom
 - o Teaching kids in terms of hygiene: environmental science as a subject but might be poorly supplemented.
 - o Doesn't focus on everyday hygiene and more about what can you do for the environment?
 - o Every day they read about self- hygiene but these are not fully enforced
- Bathroom: unsure of who is cleaning
 - o Ex-headmaster, they ant to get something to clean the bathroom, once every two day.
 - o So someone is doing the work but no one knows who is doing it nor do we have proof.
 - o We can probably ask someone to take a picture.
 - o This is a good project and picture for the donors to see what we did.
- We can try to get info on their hygiene practices
- Maybe think of incentives so that people can wash their hand.
- They don't have sinks so that they could wash hands.
- They have sinks in the clinic but not in the girls's restroom
- Ask:
 - o what kind of sinks do you have?
 - o and if so, do you have soap?

Event: non-adult tickets= \$50

- Rashmi: ask the dancer for an opinion to see what would be the best fit price
- We can still have different tiers for seats.

Publicity: komal sent out email, please cooperate!

- Flyer ideas: email Janaki or Rashmi because we want to make a professional one for the event

Fundraiser: Frank will probably be in charge

- Companies in the area who have done corporate sponsorship, so we go around Westwood and ask for sponsorship as their logo will be printed free on our flyer
- \$4800 for the venue
- We are estimating \$1000 for other utilities

Starting next week: meeting will be at 7pm on Mondays, same room: Lakretz 100.

Minutes by: Maithy Nguyen
